

IILM UNIVERSITY, GREATER NOIDA

INTERNSHIP REPORT PRESENTATION

Web Development Internship Program

CANDIDATE NAME

Ashish Yadav

ROLL NUMBER

25SCS1003004553

PROGRAMME

B.Tech CSE (2025-2029)

ORGANIZATION

Codec Technologies Pvt. Ltd.

DURATION

22 June – 22 July 2026

CORPORATE ID

CORPORATE6759d549ce59e1733940553

✓ AICTE & ICAC Approved

🏆 ISO 9001:2015 Certified

🌐 Google for Education Partner

Candidate Profile

STUDENT DETAILS

Web Developer Intern

Ashish Yadav

Pursuing Bachelor of Technology in Computer Science & Engineering with focus on modern full-stack web engineering.

ROLL NUMBER
25SCS1003004553

INSTITUTE
IILM University

ACADEMIC SESSION
2025 – 2029

LOCATION
Greater Noida, U.P.

Organization: Codec Technologies

Mode: Pan India, Hybrid

 Web Development Coding Workstation

About The Organization

CODEC TECHNOLOGIES & AICTE

AICTE Recognized

Officially registered under the AICTE National Internship Portal (Corporate ID: CORPORATE6759d549ce59e1733940553) providing accredited project training.

Global IT Footprint

Codec Technologies delivers IT and business consultancy services across 27+ countries, bridging students to industry-grade software practices.

Quality Certified

Accredited with ICAC global certification, ISO 9001:2015 quality standards, and recognized as an official Google for Education Partner.

Verified Industry Program

Supervised by Program Manager Dr. Anurag Shrivastava | NCS ID: E19E86-0116588288923

1 Month Immersive Track

Problem Statement & Need

INDUSTRY FOCUS

Academic Gap

Conventional computer science curricula often prioritize theoretical computing concepts over hands-on full-stack development workflows, cloud deployment pipelines, and modern web application standards.

Industry Requirements

Modern software firms require developers equipped with rapid responsive styling, dynamic JavaScript application state management, RESTful API integrations, and robust cross-browser reliability.

Internship Core Objectives

LEARNING PILLARS

-  **Master Frontend Foundations:** Build Semantic HTML5 structure and advanced CSS3 component design using modern layout modules like Flexbox and CSS Grid.
-  **Interactive JavaScript & DOM Manipulation:** Implement dynamic user experiences, asynchronous data fetching using ES6+ syntax, Promises, and Async/Await.
-  **Frontend Framework Integration:** Understand component-driven development with React.js, component lifecycle, state hooks, and responsive Bootstrap/Tailwind UI patterns.
-  **Backend & API Services:** Gain exposure to RESTful API architecture, Node.js runtime environment, Express routing, and data handling with JSON/MongoDB.
-  **Deployment & Clean Code Standards:** Execute version control workflows with Git/GitHub and deploy responsive web interfaces to production servers.

Technologies & Developer Tools

TECH STACK

-  **HTML5 & CSS3:** Modern semantic markup, CSS Box Model, CSS Custom Variables, and Responsive Design.
-  **JavaScript (ES6+):** Arrow Functions, ES Modules, Fetch API, DOM Events, and Object Destructuring.
-  **React & Frameworks:** Component hierarchy, React Hooks (useState, useEffect), and UI Libraries.
-  **Node.js & Express:** Local HTTP servers, Express middleware, API endpoint routing, and CRUD operations.
-  **Git & Developer Tools:** Version control, GitHub repositories, Chrome DevTools debugging, and VS Code.

4-Week Learning Journey

WEEKLY CURRICULUM

Foundations

HTML5 semantic tags, CSS styling, Box Model, and responsive flex layouts for cross-device compatibility.

Interactive JS

JavaScript fundamentals, DOM events, control flows, dynamic form validation, and interactive UI logic.

Frameworks & APIs

Bootstrap/Tailwind styling, introduction to React component lifecycle, dynamic state, and REST API calls.

Full Stack & Launch

Node.js API setup, MongoDB data integration, testing, code optimization, and cloud deployment.

Practical Outcomes & Achievements

KEY METRICS

100%

Hands-On Practical Output

Fully functional web application built and deployed during the program duration.

- ✓ **Responsive UI Development:** Designed multi-page website interfaces adhering to fluid grid standards.
- ✓ **Dynamic Data Fetching:** Integrated external web services and asynchronous APIs to render real-time dynamic content.
- ✓ **Clean Code & Performance:** Optimized asset loading, SEO metadata, and accessibility across modern web browsers.

Completion & Certification Record

OFFICIAL CERTIFICATE

Codec Technologies Pvt. Ltd.

AICTE & ICAC Approved Internship Program

☀ OFFICIALLY VERIFIED

This certifies that

Ashish Yadav

has successfully completed the 1 Month AICTE & ICAC Approved Internship Program as a **Web Developer Intern** conducted from **22/06/2026 to 22/07/2026**.

AICTE CORPORATE ID
CORPORATE6759d549ce59e1733940553

PROGRAM MANAGER
Dr. Anurag Shrivastava

RECOGNITIONS
ISO 9001:2015 | Google Edu

Key Internship Takeaways

SUMMARY

Technical Mastery

Gained proficiency in translating UI wireframes into responsive HTML/CSS structures and interactive JavaScript logic.

Industry Workflows

Experienced full project lifecycle including modular component structuring, REST API consumption, and version control.

Career Readiness

Developed problem-solving skills and professional confidence required for scalable software and web development roles.

THANK YOU!
